## MODERN SPARKLING WINE

### 2018 Sparkling Pinot noir Rosé

We have been toiling (blood, sweat, and tears) to bring you our second vintage of wines. A product of much inspiration and hard work, this brand has been born out of our love of sparkling wine and a desire to reimagine sparkling wine in California. CARBONISTE is dedicated to making sparkling wines that are modern and representative of grape and place.

Following our 22 cases of 2017 rosé, the **2018 Sparkling Pinot noir Rosé** is a blend of Pinot noir from two vineyards in Santa Cruz and Marin, as well as 15% Chardonnay from Marin. It's a fun and fresh sparkling wine with notes of wild strawberries and guava. It pairs well with a wide range of fresh foods including uni, ginger stir fry, and summer barbeque.

#### Winemaking (Traditional + Modern)

After harvest, grapes were pressed whole cluster and settled overnight. After removing the clean juice from the grape sediments, the juice was fermented in neutral oak over 2 weeks. The fermentation sediment was kept with the wine until preparing for bottling in December. This allows us to avoid adding sulfur until bottling. The wine was bottled with fresh yeast and a small amount of sugar.

After 3 short months in bottle, the yeast had consumed the sugar, the sediment was removed, and we added back a small amount of wine and sugar. After a light dosage, the bottles were capped again in order to preserve the natural youth and freshness of the wine. We prefer crown caps as a final closure. They are trusted across the world to age wines before disgorging. They are a technical closure that allows minimal variation between bottles.
